### TRAINING ANNOUNCEMENT

# Digital Forensics for Prosecutors

Mastering Digital Forensics for Prosecutors: This dynamic course is tailored for ICAC, high-tech crime, and legal professionals dealing with digital components in criminal cases. Tailored for individuals with varying technical backgrounds, the program equips prosecutors with the skills to comprehend digital artifacts crucial for establishing elements of a crime. Over three intensive days, prosecutors will delve into crucial topics such as fundamental technology concepts, the digital forensics process, hashing, data recovery, and mobile forensics. Instructors will guide hands-on exercises using powerful tools like AXIOM and Cellebrite Reader, ensuring practical expertise. The course covers search and seizure protocols, cloud evidence analysis, preparing forensic examiners for court, and tackling common defenses. Gain insights into case law and hot topics, equipping prosecutors to navigate the evolving landscape of digital forensics with confidence.

#### What you will learn:

- Master digital forensics principles
- Navigate modern tech and storage
- Explore digital forensics process
- Gain expertise in hashing
- Dive into data recovery
- Uncover secrets of Metadata
- Tackle search and seizure
- Overcome common defenses and challenges

#### Who should attend

This 3-day course is designed specifically for all prosecutors who work in ICAC, high-tech crime or other crimes that contain a digital component. This course is non-technical in nature, and all prosecutors – regardless of their technical background – will gain the skills and knowledge to enhance their digital forensics knowledge and gain competency in leveraging evidence from computers, mobile devices, and other digital data sources.

“I feel much more empowered and educated on this area, very informative and makes me want to attend more trainings on the topic and others with SEARCH and these instructors!” – Assistant District Attorney

“I was able to take away information that will be instantly useful for our prosecutions.” – Assistant District Attorney

**Enrollment in each course is limited to 20 persons, unless otherwise noted.**
